

1

Make your way to the venue and let Reception know you have arrived

2

Read carefully and sign the consent form, if you have any questions ask your Screener

3

The Screener will come and collect you for your appointment

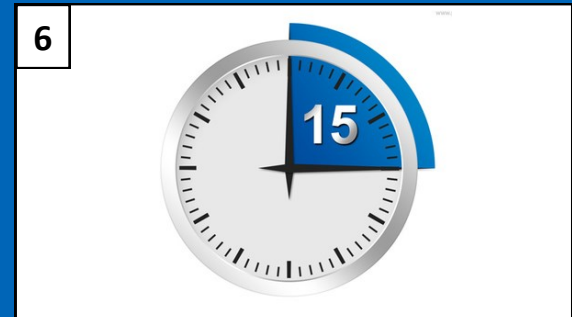

4

The Screener will ask you to read an eye chart

5

The Screener will apply some Tropicamide eye drops to dilate your eye

6

Return to the waiting room to let the drops dilate your eyes

7

After 15-20 minutes, the Screener will take a photograph of the back of your eye (retina)

8

The drops make your eyes sensitive, so bring sunglasses and don't drive for up to 4 hours

9

2 - 4  
weeks

You will receive your result letter within a few weeks of your appointment
